SEWING MACHINE.

OUR NEW FAMILY MACHINE.

OUR NEW FAMILY MACHINE,

Has been over two years in preparation, and which has been brought to perfection regardless of time, labor or expense, and is now confidently presented to the public as incomparably the best Sewing Machine in exhibence.

The Machine in question is simple, compact, durable and beautiful. It is quiet, light running and capable of performing a range and variety of work never before attempted upon a single Machine—using either Silk, Twist, Linen or Cotten Thread, and sewing with equal facility the very finest and coarsest materials, and anything between the two extremes, it the most beautiful and substantial manner. Its attachments for Hemming, Brading, Cording, Tueking, Quitting, Felling, frimming, Binding, etc., are Novel and Practical, and have been invented and adjusted especially for this Machine.

New designs of the unique, used and popular folding tops and cabinet cases peculiar to the Machines manufactured by this Company have been prepared for enclosing the new Machines. These are gotten up in every variety of wood, such as Black Walnut, Mahogany, Rosewood, and the like, and from the painert to the most elaborate nattern and flush—the Machines themselves being more or less highly comment—ed, to correspond with the Tables or Cabinets for which they are intended.

A few reasons why SINGER'S latest improved SEWING MACHINES are the best for Family and General Purposes.

1st. You can sew anything from the finest single thickness of Swiss or Nansook to several thicknesses of the heaviest Beaver cloth, using any kind or size of thread with equal facility, from No. 29 (cotton up to the heaviest patent or Linen thread. Linen thread,
2d. It uses a short straight needle, easily ast,
and makes the popular Lock Stitch slike on both sides.
2d. It has an even self-adjusting tension which requires no change for different thicknesses of insterial or different sizes of thread.

Ith. It is free from all springs, wires and other complications, and is almost noiseless.

5th. No threads to hold or wheels to turn in

arting. 6th. It does not have to be taken apart to oil and clean it.

7th. It has a perfect feed whereby you can sew
the finest materials without having to keep your work stretched to prevent its "puckering," and you haver have to assist the work through as in all other punchings.

You never have to assist the work through as in all other machines.

Sth. It will here any width, sew a straight searn, or make a rell in the most perfect manner, with less skill than is required to sew a straight searn on any other machine. Its attrachments for branding, Cording, Quitting, Binding, Tucking, &c., are novel and practical, and require but little skill to use them.
